Support the author

Hello No, this isn't an extra extra.
It's been brought to our attention recently that the author of Nekota no Koto has been made aware of the English scanlations
Understandably, she was upset And in turn, we also felt guilty that we never added a "support the author" page

So support her If you don't feel like it now, especially since you've read all of Nekota, maybe you can buy her next works For those following her twitter, you'll be the first to know when she releases a new series She makes good stories, so she will definitely come back soon

There are plenty of options to buy her works Here's a list of popular sites:
Amazon JP
YesAsia
Kinokuniya (if you buy the whole series, you'll get free shipping)
ebookjapan jp (digital versions are usually the cheapest options, and making an account is easy)

Paste the Japanese title of Nekota in any of their search engines and you'll be led right to the corresponding page

Hopefully this message encourages one or two of you to support her :)
